RULING ON ENTITLEMENT¹

Dorsey, Chief Special Master:

On August 20, 2018, petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that she suffered from a right shoulder injury as a result of receiving an influenza (“flu”) vaccine on October 18, 2017. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On July 15, 2019, respondent filed his Rule 4(c) report in which he concedes that petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1.

¹ The undersigned intends to post this ruling on the United States Court of Federal Claims' website. **This means the ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, the undersigned agrees that the identified material fits within this definition, the undersigned will redact such material from public access. Because this unpublished ruling contains a reasoned explanation for the action in this case, undersigned is required to post it on the United States Court of Federal Claims' website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services).

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

Specifically, respondent has “concluded that petitioner’s SIRVA was more likely than not caused by the October 18, 2017, flu vaccination.” *Id.* at 2. Respondent further agrees that “petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration.” *Id.* at 3.

In view of respondent’s position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
